Kitchen Notes from Will White

Corned beef and cabbage is widely associated with St. Patrick's Day, but its roots are more Irish-American than traditionally Irish. In Ireland, pork—especially bacon—was historically more common, while beef was often too expensive for most families. When Irish immigrants arrived in the United States in the 19th century,

particularly in cities like New York, they found that corned beef was affordable and readily available from Jewish butchers. They paired it with cabbage, a familiar and inexpensive vegetable, creating a hearty, celebratory meal. Over time, this adaptation became closely linked with St. Patrick's Day festivities in America, even though it was not a staple holiday dish in Ireland itself.
