Each Pick Well icon highlights a different important health or nutrient claim that meet specific standards as regulated by the Food and Drug Administration (FDA), so you can trust that information.

GOOD SOURCE OF PROTEIN

A Good Source of Protein contains essential nutrients that assist with promoting satiety and can promote blood sugar stabilization. High protein diets also help enhance the thermic effect of food, or the calories burned during digestion. Including a variety of different protein foods from animal and plant sources will help meet nutritional needs. Foods that receive this label will provide at least 10% of the daily value for protein.
